

### Friday Night Worship Concert

To wrap up the entire week, we will put on a worship concert on Friday evening to bring glory to God and show all that we have learned. We will have a chance to celebrate with the whole variety of instruments. Friends, family and the whole community will be invited as we celebrate what God has done, not just throughout history and throughout the world, but right here and now, including in and through us!

The evening will be recorded and DVD's of the event will be made available to all, as an altar and testimony of what God did.

# CEDARHOME WORSHIP CAMP

June 22-26, 2009

# CEDARHOME WORSHIP CAMP '09

## Kick your summer off right!

What better way to start your summer than with a group of friends exploring two of your favorite things: God and Music! This will be a week full of fun as well as musical and spiritual enrichment.

## What is worship anyway?

In a world where most musicians are rock stars and pop icons, ... it's easy to get confused. We'll start each day by getting back to the basics, according to God's word! We'll explore who we are, what we are meant to do and how music fits in to that whole puzzle.

## Let's do it all!

Every student will have training in and lots of opportunity to sing and play all the instruments including guitars, bass, drums and keys/piano. Never played them before? Don't worry, we'll be starting from scratch and you'll get a chance to learn the basics on all of them!

F.A.Q.	
Dates	June 22-27
Times	Mon-Fri: 9am-4pm Friday Concert @ 7pm
Cost	\$99 per student

Lunch?	Bring a sack lunch!
Registration Deadline	June 14th
How many?	10 students maximum
Space is limited so sign up today by contacting <a href="mailto:jason@cedarhome.org">jason@cedarhome.org</a>	

## Visuals and Techy stuff too!

Besides musical artistry, we will look at the impact of visuals in worship and learn how to connect all the wires and push all the buttons to make it all work. We will touch on everything from color theory to digital recording techniques. We will learn all about setup and teardown of all the instruments, plus a complete sound system and learn how to run a 32 channel sound board and record our own CD and music video too.
